# MPE, A TECHNICAL COMPANY

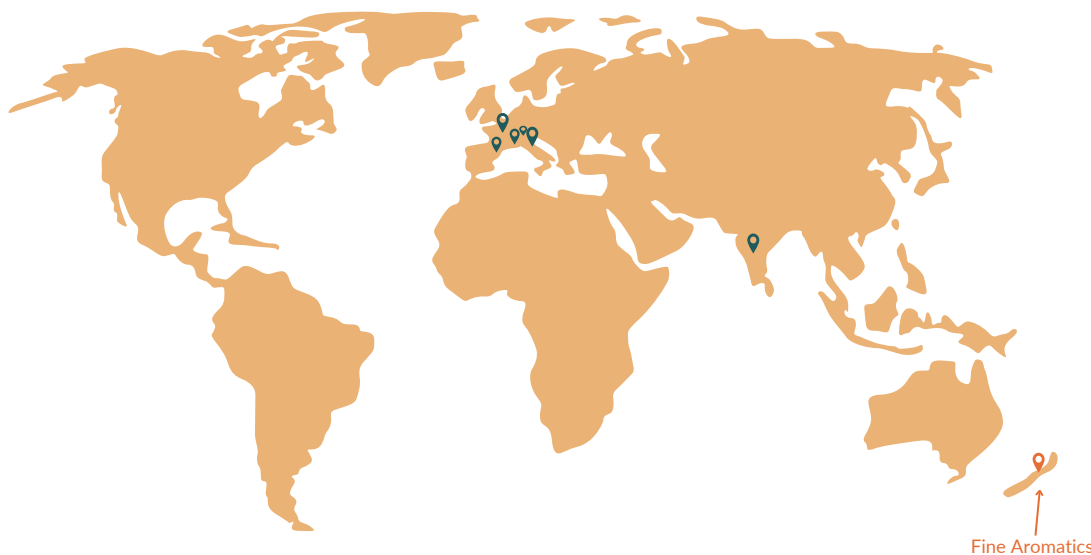

**Fine aromatics, New Zealand is a JV with MPE handling New Zealand and Australia sales and support**

Located in Grasse, the world capital of perfume, and founded in 1982 by Roland SCARPA, it is now managed by Maxime and Rémy Scarpa, his sons.

Our main activity is the trading of raw materials and essential oils for use in perfumes, food flavors, cosmetics and detergents. We are present in France and abroad.

We buy raw materials from all over the world. We also export internationally. All this implies a great responsibility but also a strong requirement in terms of quality control of products.

Fine Aromatics

# EUROPIEMONT, OUR SUBSIDIARY

In 1999, our subsidiary Europiemont was founded. Europiemont is based in Italy and specializes in the production of raw materials.

The development of Europiemont's activity has been based on two main areas: agricultural and industrial. The latter has enabled us to respond effectively to the specific demands and projects of our clients.

## **The agricultural program at Europiemont :**

Our philosophy is based on partnerships with producers at the outset, has directly led to the development of an extensive agricultural program at Europiemont. The program covers 80 hectares on which aromatic and medicinal plants are grown. Located in the Po Valley, Moretta has the most fertile land in Europe

## **The industrial program at Europiemont :**

In an old farm, we have developed several units that allow us to produce our own absolutes and resinoids.

We also produce our own essential oils

- Rectified,
- Deterpenated,
- Concentrated
- Headed
- Distilled from gums and dried roots.

We also produce semi-synthetic products from essential oils.

# LIST OF PRODUCTS

PRODUCT NAME	ORIGIN	TYPE OF EXTRACT
<b>A</b>		
Alfa <i>Stipa Tenacissima L.</i>	Morocco	Absolute
Artichoke <i>Cynara Scolymus L.</i>	Egypt	Absolute
